

T1R Seatpost Instructions.

Thank you for purchasing a T1R seatpost. The following instructions should be read thoroughly before installation. Improper installation of your seatpost could cause unexpected failure of the parts that could cause you to lose control of your bicycle resulting in serious injury or death, we recommend having your parts installed by a qualified bicycle technician. KCNC assumes no responsibility for malfunction or injury due to faulty installation.

Assembly:

1. Slacken the titanium bolts with a 7mm spanner.
2. Work the yoke onto the seat rails from the rear of the saddle and slide into position.
3. Tighten the bolts until the saddle is not loose.
4. Make final adjustments to the angle of the seat by tightening one bolt a half turn and slackening the other.
5. Finally tighten the bolts to 10 N.m. (7 lbs-ft).
