Espada backplate

- Bike Strappy backplate with simple, low-key fashion design and practical function 6061 aluminum material, full machining technology.
- Finish: Anodized
- color available: Black/Silver/Red/Blue/Green
- Specialized custom color: Oil Slick

Components

Presta tubeless valve

- Super light and anti-rust, made of lightweight anodized AL6061 aluminum.
- Superior seal with a removable valve cover, O-ring and lock nut. The large soft rubber base can easily form an airtight seal on the valve hole with a diameter of not more than 8MM, ensuring that the nut can be tightened and protecting the rim; multiple air vents at the bottom to prevent vent from blocking.
- Stem length: 50mm(sold in pair)
- Color: Black/Blue/Gold/Green/Red/Silver anodizing color.

Bottom plug – KFP01

- KFP01 is the bottom stopper, it use it the steerer tubing bottom of the fork of the MTB bike.
- You can put the multi-tool or some small bike tool into the steerer tubing of the fork. Then use the bottom stopper to lock.
- But the bottom plug only for the alloy taper steerer tuting; cannot use in the carbon fiber steerer tubing.
- AL-6061 full CNC machining, W/laser etching logo
- Color: Black/Gold/Red/Silver anodizing color.

KCNC

Garmin + GoPro mount

- Two in one Garmin+ GoPro mount, made of AL6061 by extrusion and CNC machining, w/KCNC laser etching logo, S/B anodized finish.
- Color: Black/Gold/Red anodizing color.

Fork cork mini tool set

- Concealed mini tool combines 8pcs tools and cork fork.
- Material: AL6061-T6 tool side bracket, SUJ2 cold forged steel w/ ED surface tools.
- Tool combination: 2mm/2.5mm/3mm/4mm/5mm/6mm/Torx25/Torx30
- But the bottom plug only for the alloy taper steerer tubing; cannot use in the carbon fiber steerer tubing.
- Color: Gold/Red/Blue/Silver

Components

KCNC Spoke wrench

- This professional tool is designed for precise fit and prevents rounding of nipples
- Metal nipple interface contacts nipple on all four surfaces
- Fits 3.25mm square nipple interface

KCNC Spoke holder

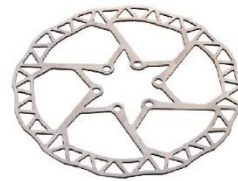

- Designed for aero bladed spoke holds firmly prevent from twisting while turning, fits spoke width range 0.9-1.3mm.
- Material: AL6061-T6
- Color: Gold, Red, Black

Components

Brake calipers

Disk brake rotor-Titor

- Heat treated 6-4 Titanium rotor.
- Sizes: 140/160/180/203mm diameter.

Speedometer magnet -KOT46-001

- It is designed to be attached then installed on six-bolt type disc rotor, made of AL6061 bracket with high-grade neodymium N45 magnet.
- Color: Black/Gold/Red anodizing color.

Speedometer magnet -KOT46-002

- It is designed to be installed on Centerlock type disc rotor work as the centerlock ring, made of AL6061 bracket with high-grade neodymium N45 magnet, adjustable position controlled bolt fixing.
- Color: Black/Gold/Red anodizing color.

MTB jockey wheel system for SR Eagle 12s

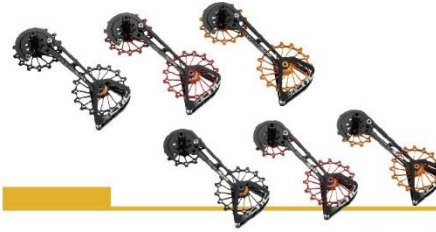

- AL7075 cage& jockey wheel
- Jockey wheel size set 14+16T
- Compatible with SR Eagle 12s rear derailleur.
- Optional SUS or full ceramic bearing
- Black anodized only

Components

MTB jockey wheel system for Shimano XT

- AL7075 cage& jockey wheel
- Jockey wheel size set 14+16T
- Compatible with Shimano 11S Deore XT M8000 rear derailleur.
- Optional SUS or full ceramic bearing
- Black anodized only

MTB jockey wheel system-KOT39

- AL7075 cage& jockey wheel
- Jockey wheel size set 14+16T
- Compatible with 12s Shimano XTR RD-M9100 SGS long cage derailleur, 2020 model.
- Optional SUS or full ceramic bearing
- Color: Black/Gold/Red/Silver anodizing color.

KCNC Center lock disc rotor- NORDIT

- 420 stainless steel disc rotor built in with center lock type
- AL6061 spider, center lock ring (AL6061 Black color only) provided in the set.
- Rotor Size: 140/160/180/203mm
- Spider Color: Black/Red/Gold

Components

Platform pedal- ACTIVATE

- AL6061 platform made by extrusion and CNC to unique profile with anti-skid nails.
- Material: AL6061-T6 platform, SUS420 axle
- Platform dimension: 85*85*16 mm
- Color: Black/Red/Gold/Silver

Platform pedal-ROAD

- AL6061 platform made by extrusion, one side to clip in fits SPD system, flip to the other side as platform pedal.
- Material: AL6061-T6 platform, SUS420 axle
- Platform dimension: 72.5*85*16 mm
- Color: Black/Red/Gold
